

6 Courses

RPA Basics and Introduction to UiPath

Data Manipulation in RPA

UI Automation and Selectors

Control Flow in RPA

Automation Techniques in RPA

UiPath Orchestrator and Capstone Projects

Jan 24, 2023

Ejaz Ahmed

has successfully completed the online, non-credit Specialization

Robotic Process Automation (RPA)

The Robotic Process Automation (RPA) specialization offers comprehensive knowledge and professional-level skills focused on developing and deploying software robots. It starts with the basic concepts of Robotic Process Automation. It builds on these concepts and introduces key RPA Design and Development strategies and methodologies specifically in the context of UiPath products. A student undergoing the course shall develop the competence to design and develop automation solutions for a defined process.

Daniel Dines
Co-CEO | UiPath

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
